S26-00802	Organic CBD Oil Batch FSB126	CIP	Medical	N/A

Sample Weight (g)	Serving Size (g)	Servings per Package
144	1	1

Case Narrative

These results apply only to the items tested, as received, by MCR Labs Maine. Values reported below quantitation limits or calculations using below quantitation limit results are for informational purposes only and should be considered an estimate. Unless specified by regulation, measurement uncertainty is not taken into account when reporting results and making a statement of conformity. Not all potential existing hazards were tested. For Cannabinoids, LCS was outside of acceptable range for THCA but it was determined it had no impact on data. For pesticides, quality control sample recovered outside tolerance limits, demonstrating a potentially low bias. Results were individually reviewed to verify all affected analytes were not detected in the sample. The LCS for PS testing exceeds acceptance limits, however there is no perceived impact on data.

This report and all information herein shall not be reproduced, except in its entirety, without the expressed consent of MCR Labs. Results apply only to the sample supplied to MCR Labs.

The test results presented in this report are accurate, complete, and compliant with the MCR Labs quality control criteria.

Total CN	14.1	14.1	14.1	1.41	N/A	N/A	N/A

Note: *Result non-accredited.

ND = Not Detected

AL = Above Adult Use Limit

Total THC is calculated using the equation: Total THC = [Δ9-THC] + 0.877[THCA].

Total CBD is calculated using the equation: Total CBD = [CBD] + 0.877[CBDA].

Testing limits are based on the limits set forth by the Maine Office of Cannabis Policy pursuant to 18-691 CMR, Chapter 5.
